

PRODUCT DATA SHEET (PDS):

DANDO-PAC

DANDO-PAC

High Performance mud polymer

**Introduction
&
Benefits**

Retard shale swelling and disintegration Effective in freshwater, saltwater, and brine-based drilling fluids Effective in small concentrations for viscosity and filtration control. Does not require a bactericide Nontoxic

**Appearance, Physical
and Chemical Properties**

White/tan powder
Specific Gravity 1.60
pH 8 @ 1% solution

**Recommended
Treatment**

Add 1 to 5 kg/m³ to water, slowly, using hopper or colloidal mixer. Does not require a bactericide

Packaging

Powder: 12.5 and 20 kg pails, 25 kg sacks, palletised.

Safety & Environment

Consult MSDS. Non toxic, biodegradable
