

**PRODUCT DATA SHEET (PDS):**

**DANDO-POL**

**DANDO-POL**

**Multi-function liquid polymer mud additive**

**Introduction  
&  
Benefits**

Stable, cost effective polymer for fresh or salt water muds  
Reduces clay hydration and dispersion  
Allows sand drop-out on surface  
Mixes easily  
Economical Safe in use  
Compatible with most mud additives - greatly improves bentonite mud - or can be used by itself

**Appearance, Physical  
and Chemical Properties**

Off-white oily liquid

**Recommended  
Treatment**

Add 500 gm to 4 kg/m<sup>3</sup> to fresh or brackish water.

**Packaging**

Liquid, 25 kg drums, palletised

**Safety & Environment**

Non toxic, slowly biodegradable.
